Yes

Basics

Is this the right keyboard layout?

If you also use another keyboard layout, you can add that next.

US
Canadian Multilingual Standard
English (India)
Irish
Scottish Gaelic
United Kingdom
United States-Dvorak

Yes

Let Cortana help you get things done

To do this, Cortana needs access to some of your personal information

To let Cortana provide personalized experiences and relevant suggestions, Microsoft collects and uses information including your location and location history, contacts, voice input, speech and handwriting patterns, typing history, search history, calendar details, content and communication history from Microsoft services, messages and apps. In Microsoft Edge, Cortana uses your browsing history. You can always change these choices in the Notebook and disable Cortana in Microsoft Edge.
